

X-Mask™ Pro microSD card

Invisible Storage.
Unmatched Security.

Protect What You Can't See

Flexxon X-Mask™ Pro microSD card is a compact cybersecurity storage solution that keeps your sensitive data invisible and protected. Designed for critical sectors like defense, healthcare, finance, and industry, it uses password authentication to block unauthorized access, tampering, or deletion.

With high performance, wide compatibility, and unmatched reliability, X-Mask™ Pro **ensures your confidential data stays hidden and secure.**

Key Advantages

Invisible Data Storage

Critical data is masked and concealed automatically when not in use.

Advanced Encryption

Data scrambling and hashing algorithms provide robust protection.

Zero Configuration Hassle

Plug & Play functionality – no device changes, no drivers, no delays.

Access Restricted

Only accessible via password with proprietary software.

Compatible & Reliable

Quick and easy setup configuration

Ideal for

Defense

Healthcare

Surveillance

Creative Media

Financial Institutions

Law Enforcement

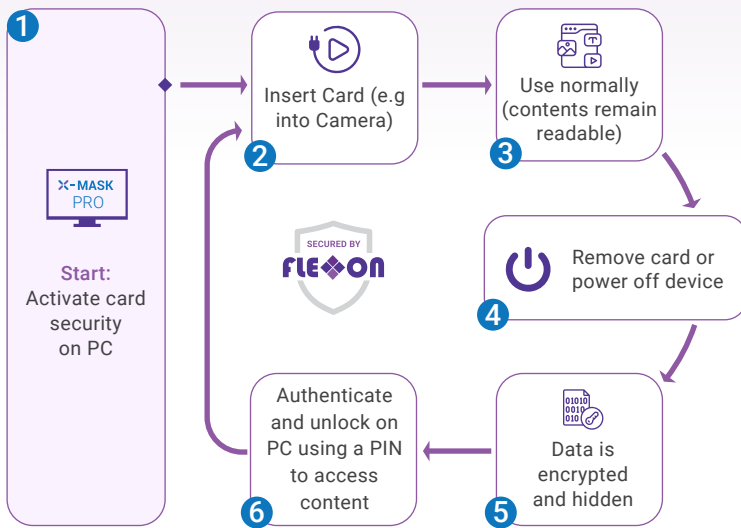

Industrial Applications

How It Works & Technical Specifications

How X-MASK™ Pro works

Specifications

Category	Details
Form Factor	Standard microSD
Capacity Range	64GB to 128GB
Software Tool	X-Mask Pro Tool (Windows OS)
Access Control	Built-in data protection and usage limitations
Security Focus	Invisibility to unauthorized systems
Dimensions	15mm (L) × 11mm (W) × 1mm (H)

Where X-Mask™ Pro Delivers Value

Law Enforcement & Security Agencies

Preserve footage from bodycams and dashcams without risk of deletion or misplace.

Military & Defense

Secure tactical recordings and field operations, even in the event of device capture.

Healthcare & Medical Research

Ensure HIPAA-compliant storage of sensitive imaging and diagnostic files.

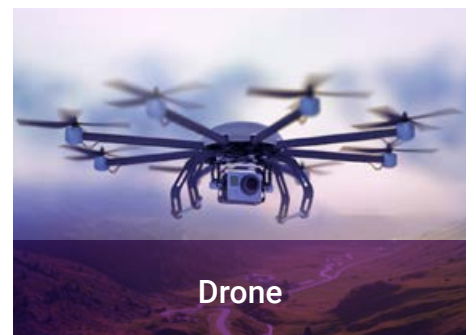

Financial Institutions

X-MASK™ ensures financial data protection with advanced onboard encryption.

Creative & Visual Arts Professionals

Preserve intellectual property and creative assets from unauthorized copying or sharing.

Drone

Ultra-fast, secure memory optimized for drone footage capture and transfer.

Why Choose X-Mask™ Pro?

- ❖ Affordable alternative to AES-256 encrypted memory cards
- ❖ No recurring costs – no installation or setup fees
- ❖ Fast and secure deployment in sensitive environments

Let Flexxon help you keep your data invisible – and accessible only when you need it.
